

**Katayoun Chamany**  
*SENCER Leadership Fellow*

Biosketch

Katayoun Chamany is Associate Professor of Biology and the founder of the Interdisciplinary Science program of Eugene Lang College, The New School for Liberal Arts; an undergraduate science literacy program focused on teaching science in the context of society. Trained as geneticist and cell biologist, she uses a socio-political approach and case study method to teach courses in the area of infectious diseases, cell biology, and genetics. She is the author of *Cell Biology for Life*, a collection of educational modules published by Garland publishing (<http://www.garlanscience.com/cbl>). She received the Distinguished University Teaching Award in 2000, is an active member of the Faculty for the 21st Century of Project Kaleidoscope, a national organization focused on undergraduate science education reform, and serves as a reviewer for the National Center for Case Study Teaching in Science. She received her Ph.D. in Molecular and Cell Biology at the University of California, Berkeley in 1996.
