

Wm. David Burns is the founder and principal investigator of SENCER, the NSF-supported national dissemination project. Burns is also executive director of the National Center for Science and Civic Engagement and professor of general studies at the Harrisburg University of Science and Technology. Prior to establishing the National Center, Burns served as senior policy director for the Association of American Colleges and Universities. During his nine years with AAC&U, he established the CDC-sponsored Program for Health and Higher Education and created the Summer Symposia dedicated to exploring the power that students have to improve the health of colleges and communities.

He is the principal author and editor of Learning for Our Common Health and, among other publications, the article, “Knowledge to Make Our Democracy.” Among Burns’ community activities he serves as president of the Boaz Community Corporation, a community development corporation focused on immigration and is a member of the Governor’s Committee on Juvenile Justice and Delinquency Prevention. In 1994, Burns was appointed adjunct assistant professor, Department of Environmental and Community Medicine, Robert Wood Johnson Medical School, University of Medicine and Dentistry of New Jersey, Piscataway, New Jersey. He has served as principal investigator on grants and awards totaling more than \$12 million.
